

This is the first bulletin regarding the Fourth International Conference on Life and the Family organised by the Mother & Child Campaign and Youth Defence. These conferences have become world renowned and a must on the pro-life calendar.

This conference is not only a chance to hear the excellent talks, but to meet people from around the globe who will also be attending. Speakers attending are from places as diverse as Kildare and Sri Lanka.

The organisations represented are truly varied. We will have speakers from the political arena in European and World politics such as Inese Slesere, an MP from Latvia who will tell the conference about Latvia's pro-family policies. Representing the field of journalism is John Waters, the well known Irish newspaper columnist.

Youth Defence has also organised young speakers from around the world. These young people vary their tactics according to their ministry. Among those attending are Bryan Kemper, founder of Rock for Life and director of Stand True; and Brandi Swindell, Director of Generation Life, who co-ordinates events across the USA. Closer to home is Eoghan De Faoite, Chairperson of Youth Defence, Ireland's leading pro-life youth group.

The styles of our conferences have won much praise in the past. Top class facilities right in Dublin city centre makes it convenient. Traveling to and from the venue is simple as buses stop almost at the door and trams are ten minutes walk away.

Past delegates have returned to every event not only to hear speakers and exchange news but also because of the inspiration and encouragement that the weekend promises. Of the last conference this is what some delegates said;

An almighty thanks for what can only be described as the best conference in the world
Bernadette and Zoifa, Glasgow
